

March 18, 2020

4:30 p.m.

Winnipeg School Division is continuing to implement its business continuity plan. This ensures that key functions to maintain essential services for student learning and business operations such as payroll, accounts payable and technology are protected.

In addition, WSD Senior Administration is developing a work-from-home strategy to determine where we have flexibility for employees to work-from-home so that we can do our part in social distancing and limiting opportunities for transmission of COVID-19. We recognize that it is all of our responsibility to delay and minimize the peak in COVID-19 cases to help manage the impact on the health care system.

Every WSD school has developed a plan and created materials to ensure continuity of learning for students in their homes. Supporting these home learning plans will be a key aspect of our work-from-home strategy.

We expect to release details of our strategy to staff on Thursday, March 19, 2020.
