Let's get to work!

Individuals working in the piping trades play an important role in our economy and society.

These individuals have an interest in construction, enjoy performing math calculations, working with their hands, and performing a wide-variety of tasks with construction tools and equipment.

They are able to understand and follow detailed blue prints and documents along with visualizing complex piping systems.

In addition, they are excellent problem solvers and take pride in their work.

To earn a head start on your career apply now!

Winnipeg School Division is offering this program in partnership with the Piping Industry Technical College. The program will be partly taught in the training facility located on 34 Higgins Avenue.

Plumbing & Pipe Trades

Winnipeg School Division Off-Campus Apprenticeship Program

The Plumbing and Pipe Trades program offers the skills, theory and experience needed to start a pipe trades apprenticeship.

The pipe trades include plumbing, steam fitting, gas fitting, sprinkler fitting and HVAC. This Off-Campus Apprenticeship program provides its students with both the skills and work experience necessary to gain employment in a high demand and well paying skilled trade.

For more information, or to start the application process, please talk with the guidance counsellor at your school.

Apprenticeship

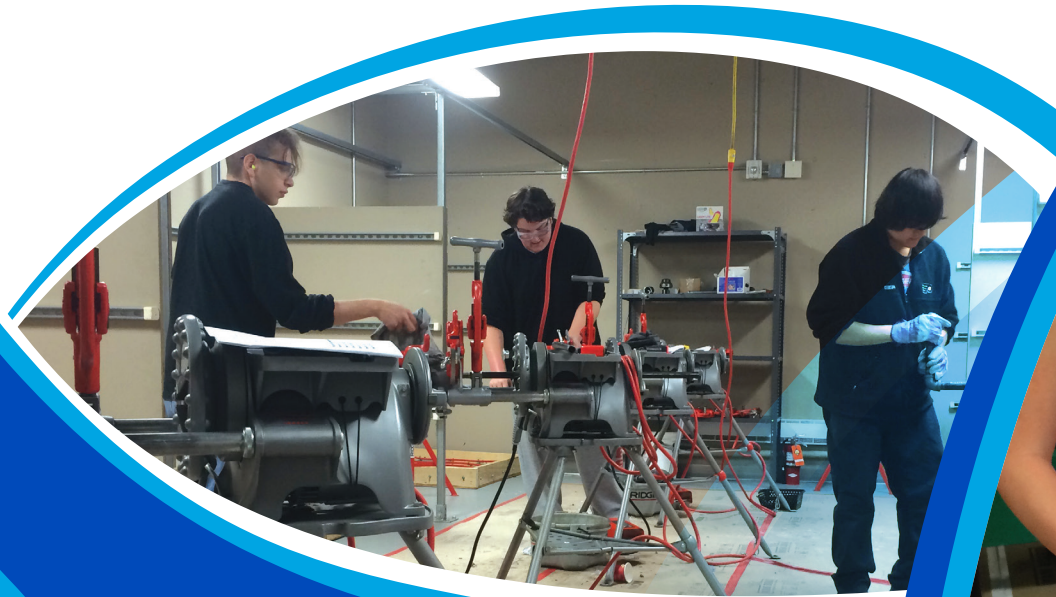

The program consists of two full-time semesters of course work.

Starting in February students will attend classes located at Manitoba's Piping Industry Technical College located at 34 Higgins Avenue. Students will also spend several weeks performing on the job training with a plumbing and pipe trades company.

Both semesters combine classroom instruction and on the job training.

Upon completion of the program students will have earned the following eight vocational credits:

- Introduction to Plumbing Pipe Trades 20S
- Introduction to Piping Systems & Theories 30S
- Installation of Plumbing & Piping Systems I 30S
- Installation of Plumbing & Piping Systems II 30S
- Sanitary Venting Systems 40S
- Sanitary Drainage Systems 40S
- Installation of Plumbing & Piping Systems III 40S
- Applied Plumbing & Piping Systems 40S

Student who can apply for the program include:

- Students currently enrolled in grade 11 or 12 in a Winnipeg School Division school or at W.A.E.C.
- Former students who live in Winnipeg School Division can submit an application and upon approval may take the course.

Students must have a strong desire to learn and work in the plumbing and pipe trade

Students must complete an Off-Campus Apprenticeship application.
