

# CLASSROOM NEWS!!

Ms. Tymchyshyn

mtymchyshyn@wsd1.org

## WHAT HAS HAPPENED SO FAR ...

**Math** – We started our Dreambox accounts. Every student has had the chance to use Dreambox in class to enhance their math learning.

**Science** – We had a guest from WISE KidNetic Energy come into the class to teach us all about different dwellings known in Canada and our history. Then students had the opportunity to build together.

**Social Studies:** We spent some time learning about *Dia de los Muertos* (Day of the Dead). We discussed the differences between this Mexican tradition and Halloween. Students even drew and coloured their own sugar skulls!

**Math:** What is everything you know about the number 50? We explored this number in groups, learning about different ways to represent it.

## WHAT IS HAPPENING NEXT

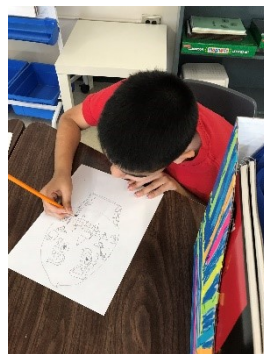

**Social Studies** – For December, we will be looking at holidays from around the world. This is going to help students gain appreciation for other cultures and learn about our whole world.

**Math:** We will look at making our own surveys and graphs. As a class we will also be looking into math strategies we know, learning more, and using these strategies to assist us in our math practice.

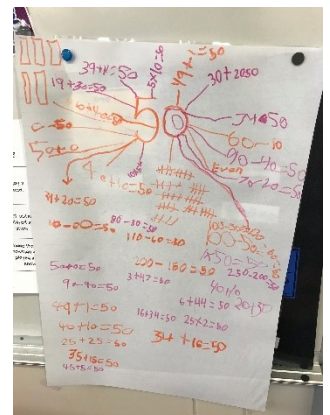

**Language Arts:** Let's build our love of reading! We are going to explore books together to become a stronger reading community.
