

Every day math Challenge – Grades 2-4 November

Complete 15 challenges as a family and return this sheet to the draw box in the office by November 30 to participate in the draw. Math games to win!

| | | | | |
|--|--|--|--|---|
| Do something kind for someone. For whom: I did : | Go for a walk. Choose three 2 or 3 digit house numbers and add them in your head. Addition: | Skip count out loud by 2's, beginning with an odd number. | Find the difference between the high and low temperatures today. The difference was: | Play a card game with your family twice this month. We played: |
| Have a 100 m race as a family. My time was: | Visit one of these websites and talk math in family! mathbeforebed.com ntimages.weebly.com | Go for a nature walk and spot a pattern on the way. My pattern: | Count all of the change in your house or in a family member's wallet (with permission). Total change: | Bonus: Any Math activity you may have done! We did: |
| Share a Number Talk (mental math) strategy with your family for how to solve one of these: $54 + 39 =$ $119 + 257 =$ | Go for a walk and measure how many steps you take as a family. Number of steps: | Draw a number line that start at 0 and ends at 100 or 1000. Accurately place 4 numbers of your choice on it. -----> | Survey 10 people who you know and make a diagram to represent your data. Do the diagram on the back. | Help a family member with a chore. I helped: The chore was: |
| Bake a family favorite recipe and talk about measurements. The recipe was: | Find birthdates of 10 people around you (family, friends) and order them on a calendar. How old are they? They are: | Measure the dimensions of your dinner table or your bedroom (length, width). Length: Width: | Calculate how much screen time and outside time you have had in one week. Screen time: Outside time: | Play a board game with dice twice this month. We played: |
