NOVEMBER 2022

Greetings family and friends of Isaac Newton,

The 2022-2023 school year is well underway and staff and students are settling in nicely with classroom routines and many co-curricular activities. It is great to see so many students engaged in different school-based activities. Many out of school activities occurred this month including the Grade 7s to Deer Meadow Farm, the Grade 8s to St. John's library, Room 13 to swimming and a trip to the zoo, and many classes participating in community walks to learn about our neighbourhood.

Athletics is also alive and well! Our 6 volleyball teams are going strong representing Isaac Newton in league games and various tournaments throughout the city. Many thanks to all the coaches who provide this opportunity for so many students to be involved!

Several activities will be starting up in November for students to watch out for such as choir club, fitness club, Uno club and drumming club. Some of these are advertised in this newsletter but there will also be posters up in the school and announcements in the mornings. Our guidance counselor Ms. Moore has started a Rainbow club and all students are welcome to attend.

All families should have received interim reports for students in October. The purpose of this report is to give you an idea about how your child is progressing in school so far. Please feel free to contact your child's teachers if you have any questions. If you did not receive the interim report, please contact the office and we can provide one to you.

Parent-Student-Teacher conferences will be Thursday, November 17 5:00 – 7:00 and Friday, November 18 9:00 am – 12:00 pm. Report cards will be sent home on Monday November 21. All conferences will be in-person at the school. We encourage all families and students to meet with teachers at this time to discuss your child progress. Please watch for a letter coming home with your child for you to indicate your preferred meeting time with teachers. If you are not able to attend during these times, please feel free to contact your child's teacher or the school and we will be happy to make other arrangements.

We will be observing Remembrance Day as a school this year with a ceremony in the gym on November 10, at 11:00 am.

Beginning January, 2023 the Isaac Newton newsletter will be sent to families through School Messenger. Eliminating paper copies helps to ensure all families are notified of news and events happening in the school in a sustainable manner. Spring report cards will also be sent through School Messenger. Please contact the school office if you need to update your email address in order to receive these communications.

We would also like to encourage all families to refer to the Isaac Newton website for a variety school-related information including monthly newsletters, Parent Council information and teacher contact information. Beginning November 1, we will also be uploading dates and times of practices and games for sporting events under the 'Extra-Curricular' tab.

WINNIPEG SCHOOL DIVISION

SAY CHEESE....AGAIN!

Picture retake day will be on Monday , November 14th.

GRADE 9 NEWS

Take Our Kids to Work Day is quickly approaching! On November 2nd, activities will take place at Isaac Newton School . The goal of these activities is to provide students with an exposure to a wide variety of careers through virtual presenters, videos and group discussions. All grade 9 classes will be in breakout sessions to explore various virtual activities. Please make sure to ask your child about the November 2nd activities.

Isaac Newton Singing Club!

Do you love to sing? Isaac Newton is starting a singing choir club where we will be learning to sing as a group. Practices will take place Wednesdays at lunch and we may add some additional lunch or after school practices as needed throughout the year. We will perform at both the winter concert and spring concert at the school. Please see Ms. Lalor in Room 4 if you are interested or show up at lunch on Wednesday in the Music Room! All grades welcome!

PARENT ADVISORY COMMITTEE

The goal of the Community Parent Advisory Committee (PAC) is for parents/guardians/school community to partner with administration, teaching staff and students to make Isaac Newton School a learning environment that reflects the best of its community and the highest social and academic achievements of public education in Manitoba. We intend to achieve this goal by pursuing the following objectives:

- Increasing the meaningful participation of parents in the community
- Attending to the social and physical environment of the school
- Creating opportunities for open discussion

We will be meeting

Wednesday, November 16, 2022 @ 5:30 pm

Please RSVP your attendance

Food will be served.

Mr.M Reza Ms. J. Popke, Ms.K.Marcyniuk

NEWS FROM ROOM 13

Last month in September, students of room 13 explored downtown on their field trip. They went to the Millennium library. Students investigated all four floors of library with other staff members. Students played in the green park outside of the library. Green Park is extremely useful for all visitors because they can spend their time outside to get some fresh air in the downtown area. Students also ate their lunch at the city place food court. It was a wonderful experience for them.

“Students with special needs require more than just on education from their teachers. They need support, warmth, and acceptance to reach their full potential.”

By Ingrid Garcia

GRADE 7 PHOTOGRAPHY (MR. DHALLA)

In the new Media Lab for Photography, grade 7 students are learning how to use iMac computers.

GRADE 7 MATH (MR. DHALLA)

The four quadrants of a Cartesian plane can now be recognized using ordered pairs, and students have also learned how to conduct and explain transformations of a two-dimensional shape in each of the four quadrants of a Cartesian plane.

In order to answer algorithmic and word problems, students are now studying the addition, subtraction, multiplication, and division of decimal numbers. Students have been given a workbook called "Operations on Decimal Numbers" to use daily at home in addition to classroom work and group projects .
