

WELCOME TO MS. ALBIANI'S CLASSROOM (ROOM 225)

My name is Sarah Albani and I have been teaching at Sister MacNamara School for 7 years. I am excited to get to know each of my new students this year and look forward to our time together. When I'm not at school I love reading, going for walks and riding bikes with my family.

ELA The students will be learning about different writing styles, how to edit their work, and how to be better writers. They will also work on becoming better readers through daily practice and learning new reading strategies. 	MATH Students will participate in Guided Math to help them learn various math strategies. I will be focusing on mental math strategies, place value, counting, patterns, and problem solving. 
SCIENCE Students will be learning about structures, plants, soils, and forces that attract and repel. 	SOCIAL STUDIES Students will be learning about connecting with Canadians, exploring the world, communities of the world, and ancient societies. 
HEALTH Students will be learning about how to get along with others, how to live a healthy life, and how to resolve conflicts. We will also be learning about the 7 teachings and how they apply to our lives.	ART Students will show their artistic side through participation in shared dance and drama opportunities in the classroom as well as creating art using a variety of materials.

YOU ARE ALWAYS WELCOME!

If you have any concerns or questions don't hesitate to stop by and see me or call me at the school.
