Thank you for considering AMVC for your child(ren). Please note that we are currently accepting registrations from students/families that reside within Andrew Mynarski's catchment area.

If you are unsure of which school catchment area you reside in, please visit  
<https://www.arcgis.com/apps/InformationLookup/index.html?appid=e81640109a6d438cb5adccebb3cbe5ea>  
or call/email our school office to find out.

If you **DO** live within our catchment area:

– please complete a registration form and return it to the AMVC school office as soon as possible. Registration can be completed online or you may request a paper registration form from the AMVC school office. Please note: **Online registration cannot be completed if you are new to the Winnipeg School Division. A paper copy must be filled out.**

Students currently living **OUTSIDE** of Andrew Mynarski's catchment area:

- please complete the registration form and return it to our school office as soon as possible. The registration will be kept on file on a waitlist (in the order that they are received) that we will consider once we can confirm our catchment area enrollment & pending review of the documents that have been submitted.

Please note that although we attempt to notify our waitlisted families prior to the start of the upcoming school year, we may not be able to contact you prior to the end of August or beginning of September regarding your registration status. Families should register at their catchment area school and be prepared for a September start there, in case space does not allow for out of catchment registrations at AMVC.

**For each child you are registering we will require copies of the following documentation:**

**1. Winnipeg School Division Application for Registration**

- Can be filled out online at <https://courrequest.wsd1.org/mayetCR> and printed, signed and returned to the school along with required identification documentation
- or you may submit a paper application with attached identification documentation directly to the office.
