Tec-Voc is a vocational high school with state of the art facilities and programs. Due to the nature of our Broadcasting and Photography programs all school activities and day-to-day school routines are recorded. Most of these images are displayed on TV monitors, photo galleries, short films, events, website and on social media sites for audiences outside of the school. In addition, teachers will be providing live streaming experiences both in real-time or recorded lesson, which may be posted on a learning platform for other students to view.

The Winnipeg School Division shares information and communicates with parents/guardians by highlighting activities within the school, and acknowledges student work and success in a variety of publications and/or Division organized or sponsored events.
