COVID Information

Are we entering a third wave with COVID?

Public Health experts agree that we could be entering a third wave of this COVID-19 pandemic. Manitoba, and Winnipeg in particular, is seeing an increase in the number of positive cases each day. With the addition of Variants of Concern, our efforts – both at school and at home - to reduce the number of contacts and positive cases must continue. As Dr. Roussin would say – **Now is not the time for sleep overs! Now is not the time to gather for birthday parties! Now is the time to stay home when ANYONE in our household is ill.** Vaccines offer a light at the end of this pandemic tunnel, but we are still quite a way from being in the clear.

Let's all work together to continue our efforts in reducing the spread of COVID-19 and its variants. If you have any question about possible COVID-19 symptoms, we ask that you please contact Health-Links (**204-788-8200** or toll-free at **1-888-315-9257**).
