## ***TAKE OUR KIDS TO WORK***

***November 2, 2022***

October 11, 2022

Dear Parents and Guardians:

On Wednesday November 2, 2022, the grade 9 students at Kelvin High School will take part in a project called *Take Our Kids to Work*. On this day, grade nine students across Canada will spend the day in the workforce to gain a better understanding of what it means to go to work. Parents, educator and community people in the workforce are committed to making this day a valuable experience for our young people by showing them how important skills, education and training are to their success.

We are asking your permission for your child to participate in this exciting event and that he/she/they accompany you to work on this day. If this is not possible, a relative or a friend could be a host for your child. We would also ask that you indicate if it is possible for you to host more than one student.

**We have ensured that all Kelvin students who participate in Take Our Kids to Work are registered with the Worker's Compensation for the day in the workplace.** We will also be integrating safety awareness and discussions regarding safety in the workplace within class preparations for the day.

We would like to urge you to participate in this event by hosting your child in your place of work, on this day. **Please return the consent form, that was sent home with your child, by Thursday, October 20<sup>th</sup> to the A Slot teacher.** If there are any questions or suggestions please contact Ms. Lise Simonsen, who is the coordinator for this event at the school at 204-474-1492.

Please help us provide this unique learning opportunity for our students and your children!

Ms. Lise Simonsen

Kelvin High School
