December 17, 2021

Dear Parents/Guardians:

The Province announced today that they would be distributing COVID rapid test kits to families with children in Kindergarten to Grade 6. The Province is anticipating that kits for students in Winnipeg School Division will be available after the Winter Break, on January 6, 2022.

At this time, we are surveying our families to determine who is interested in receiving one kit per child (Kindergarten to Grade 6). Please complete the [survey \(click here\)](#) in the next few days so that we can arrange to have kits available for those of you who want to have them.

More information will be available with the kits are distributed to you.

Respectfully,

Mr. Wyke
